Dear Dr. Blackwelder:-

I am very much obliged to you for copies of your capital papers on "Sex Reproduction in the Lucorineae", on "Differentiations of Sex in Thallus Gametophyte and Sporophyte", and the announcement of your botanical charts, all of which I am very glad to have.

I really wish that we could afford the luxury of a man like you and if we get a live president who puts us in better financial condition, I shall try hard to have somebody.

Meantime if you are in the vicinity of Copley Square at any time, drop in and see us; you will always be welcome.

Sincerely yours,

*N. T. Sergievich*
